

## PRODUCT DATA SHEET

### ATF SP-VI

PROLUBE SP VI is a fully synthetic transmission fluid, especially developed for automatic transmission. It is also suitable for power steering system and some hydraulic systems where a good low temperature fluidity is required. PROLUBE SP VI has a very high and stable viscosity index and an improved resistance against corrosion and oxidation. Due to these improvements, the drain interval for automatic transmissions is doubled.

#### TYPICAL CHARACTERISTIC

Properties		Result
Density @ 15 °C	kg/m <sup>3</sup>	847
Kinematic viscosity @ 40 °C	cSt	30
Kinematic viscosity @ 100 °C	cSt	6
Viscosity Index		151
Pour Point	°C	-48
Flash Point C.O.C	°C	210
Operating Temperature	°C	-45/160

#### Health, Safety & Environment

Prolube lubricants unlikely to present any significant health or safety hazard when properly used in the recommended application and good standards of personal hygiene are maintained.

Avoid contact with skin. Use impervious gloves with used oil. After skin contact, wash immediately with soap and water.
